Experience

Fort Lewis College | Durango, Colorado | 2023 - Present

UX/UI Designer and Front-end Developer

- Spearhead design and development initiatives for a higher education institution, aligning efforts with strategic goals and student-first priorities
- Audit the existing codebase and implement a cohesive design system to standardize UI components, resolving consistency and migration challenges
- Apply user-centered design practices, including personas, site mapping, wireframes, and prototypes, to boost user engagement and reduce bounce rates
- Streamlined information architecture, implemented accessible themes, and enhanced user engagement across core websites, including the main news site and housing user flows

Curb Appeal | Durango, CO | 2022 - Present

Freelance Designer

- Provide graphic design, photography, photo editing, and website development services tailored to client needs
- Illustrate children's books and manage printer and publisher coordination for seamless production
- Plan and develop comprehensive branding packages, including logos, color palettes, graphics, and copywriting

Skeo Solutions | Remote | 2020 - 2022

Environmental Consultant and Graphic Designer

- Provide graphic design, branding, illustration, video and photo editing, with expertise in magazine-quality, long-form reports, data visualization, and WCAG/508 compliance
- Conduct research and author reports in plain language and technical formats, covering diverse topics such as solar installation feasibility on contaminated lands and community involvement plans
- Manage complex projects for government clients, successfully leading five projects to completion and securing a repeat contract through exceptional performance

Community Art Show | Charlottesville, VA | 2019 - Present

Founder, Organizer

- Created an annual, month-long art show featuring over 30 artists, funded by way of grants
- Organized the show for two years in-person, and continues to provide counsel to current organizers
